

CSC-350 Artificial Intelligence Course Project

Plagiarism & Originality Declaration

We, Tayyab Mangi and Asif Ali Rattar, students of Section E, Department of Computer Science, solemnly declare that the semester project entitled 'Advanced Time-Series Forecasting using Lorentzian Distance Classification & Kernel Regression' is entirely our own original work. We confirm that:

1. This work has not been copied or paraphrased from any other student's project or published paper.
2. All sources of information, including code libraries, datasets, and mathematical formulations, have been fully and properly acknowledged and referenced.
3. Any form of academic dishonesty or copied implementation will result in strict disciplinary action, including a zero (0) grade under course rules.

We understand the gravity of academic integrity and confirm the absolute originality of this submission.
